

Greetings from the world

Teacher Planning and Managment

Background and planning:

Students of all ages and from all parts of the world have been invited to create multimedia posters about their country.

They improve their language skills in direct communication with native speakers.

Teacher and school information

IX. gimnazija is co-educational school, comprising 550 students aged between 15-19. They are taught by 47 teachers who provide their students with a wide range of extracurricular activities.

Arjana Blazic, the teacher who launched this learning project, is an English and German teacher with a 24-year experience. She is an avid user of new technologies and one of her major goals is to teach her students how to take advantage of all possibilities that technology-enhanced learning can offer. She firmly believes that students must be taught how to make full use of the web-based educational resources. She is committed to lifelong learning and learns about new web 2.0 technologies in seminars, webinars and on Twitter.
